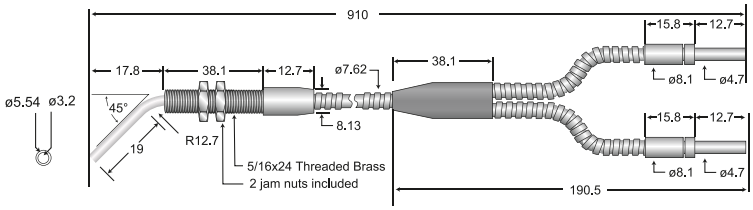
Glass Fiber Optics

Note: The product images shown may change over time as products are updated.

Dimensions



Part Number

GD-SH516-3.2

Features

- **Powerful and very rugged**
- **Can carry infrared light to provide a longer range**
- **Reliable in extreme temperatures and harsh environments**

Technical Data

Type	Glass Fiber Optics
Mode	Diffused
Fiber Bundle Diameter	3.2 mm
Viewing Angle	45 Degree
Thread Location	Shaft
Thread / Material	5/16-24 UNF-2A / Brass
Sheath Material	Stainless Steel
Length	910 mm
Temperature Range	–50 ° to 480 °F (–45 ° to 249 °C)
Minimum Bend Radius	2.5x Sheathing OD
