Glass Fiber Optics

Note: The product images shown may change over time as products are updated.

Dimensions

Minimum Bend Radius

Part Number

GD-SH516-3.2

Features

- Powerful and very rugged
- Can carry infrared light to provide a longer range
- Reliable in extreme temperatures and harsh environments

Technical Data Type Glass Fiber Optics Diffused Mode Fiber Bundle Diameter 3.2 mm Viewing Angle 45 Degree Thread Location Shaft Thread / Material 5/16-24 UNF-2A / Brass Sheath Material Stainless Steel Length 910 mm Temperature Range -50 ° to 480 °F (-45 ° to 249 °C)

2.5x Sheathing OD
