

Note: The product images shown may change over time as products are updated.

Dimensions

Part Number

GT-TA516-3.2

Features

- Powerful and very rugged
- Can carry infrared light to provide a longer range
- Reliable in extreme temperatures and harsh environments

Technical Data

Type	Glass Fiber Optics
Mode	Thru-Beam
Fiber Bundle Diameter	3.2 mm
Viewing Angle	90 Degree
Thread Location	Tip
Thread / Material	5/16-24 UNF-2A / Brass
Sheath Material	Stainless Steel
Length	910 mm
Temperature Range	-50 ° to 480 °F (-45 ° to 249 °C)
Minimum Bend Radius	2.5x Sheathing OD
