## 5-36V Inductive Proximity Sensor

Note: The product images shown may change over time as products are updated.

### **Dimensions**

**Technical Data** 

Body Style

Response Time Hysteresis

Overload Trip Point Weld Field Immune

Body Length (mm)

Weld Spatter Resistant

Body Length (mm) 70 mm

# Part Number ICU1-D081.5N-BRU4

#### **Features**

Inductive Proximity Sensors are used in a wide variety of manufacturing operations where a metal target needs to be sensed. HTM Sensors inductive proximity sensors have a Lifetime Warranty, a CSA or UL approval, and a huge inventory for sameday shipping. For tougher applications where the sensors need more range to stay out of harm's way, or to withstand high temperatures, weld spatter, chemical exposure, oil or other rough environments, HTM Sensors has the widest range of proximity sensors on the market.

### Connection

- 1 Brown
- 2 Not Used 3 - Blue
- 3 Blue 4 - Black

| Sensor Housing Material    | Stainless Steel SUS303                 |
|----------------------------|--|
| Sensor Face Material       | PBT Plastic                            |
| Mounting Style             | Shielded                               |
| Diameter                   | 8 mm Smooth                            |
| Sensing Range:             | 1.5 mm Range                           |
| Output Type:               | NPN Output                             |
| Output Function            | Normally Closed Output                 |
| Connection                 | 4-Pin Connector                        |
| Connector Type             | M12x1 Quick-Connect                    |
| Operating Voltage          | 5-36VDC                                |
| Switching Frequency        | 2 KHz                                  |
| Operating Temperature      | -25 °C – +70 °C                        |
| Current Consumption        | <10 mA                                 |
| IP Rating:                 | IP67                                   |
| EMC Rating                 | RFI>3V/m / EFT>1kV / ESD>4Kv (contact) |
| Shock Rating:              | IEC 60497-5-2 Part 7.4.1&7.4.2         |
| Short Circuit Protected    | Yes                                    |
| Reverse Polarity Protected | Yes                                    |
| Max Current                | 200 mA                                 |
| Leakage Current            | <0.01 mA                               |
| Surge Current              | -                                      |
